The Novel Cure Ella Berthoud, Susan Elderkin, 2014-12-30 Delightful... elegant prose and discussions that span the history of 2,000 years of literature.—Publisher's Weekly A novel is a story transmitted from the novelist to the reader. It offers distraction, entertainment, and an opportunity to unwind or focus. But it can also be something more powerful—a way to learn about how to live. Read at the right moment in your life, a novel can—quite literally—change it. The Novel Cure is a reminder of that power. To create this apothecary, the authors have trawled two thousand years of literature for novels that effectively promote happiness, health, and sanity, written by brilliant minds who knew what it meant to be human and wrote their life lessons into their fiction. Structured like a reference book, readers simply look up their ailment, be it agoraphobia, boredom, or a midlife crisis, and are given a novel to read as the antidote. Bibliotherapy does not discriminate between pains of the body and pains of the head (or heart). Aware that you've been cowardly? Pick up *To Kill a Mockingbird* for an injection of courage. Experiencing a sudden, acute fear of death? Read *One Hundred Years of Solitude* for some perspective on the larger cycle of life. Nervous about throwing a dinner party? Ali Smith's *There but for The* will convince you that yours could never go that wrong. Whatever your condition, the prescription is simple: a novel (or two), to be read at regular intervals and in nice long chunks until you finish. Some treatments will lead to a complete cure. Others will offer solace, showing that you're not the first to experience these emotions. The Novel Cure is also peppered with useful lists and sidebars recommending the best novels to read when you're stuck in traffic or can't fall asleep, the most important novels to read during every decade of life, and many more. Brilliant in concept and deeply satisfying in execution, *The Novel Cure* belongs on everyone's bookshelf and in every medicine cabinet. It will make even the most well-read fiction aficionado pick up a novel he's never heard of, and see familiar ones with new eyes. Mostly, it will reaffirm literature's ability to distract and transport, to resonate and reassure, to change the way we see the world and our place in it. This appealing and helpful read is guaranteed to double the length of a to-read list and become a go-to reference for those unsure of their reading identities or who are overwhelmed by the sheer number of books in the world.—Library Journal

The Frankish Kingdoms Under the Carolingians 751-987 Rosamond Mckitterick,2018-10-08 An exciting examination of the entire history of the Carolingian 'dynasty' in western Europe. The author shows the whole period to be one of immense political, religious. cultural and intellectual dynamism; not only did it lay the foundations of the governmental and administrative institutions of Europe and the organisation of the Church, but it also securely established the intellectual and cultural traditions which were to dominate western Christendom for centuries to come.

Merovingian Military Organization, 481-751 Bernard S. Bachrach,1972-05-10 Merovingian Military Organization, 481-751 was first published in 1972. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. In the area which is now France and was then Gaul, military institutions fundamentally influenced the successes and failures of the Merovingian dynasty, from 481 to 751. Professor Bachrach examines this period in detail, studying the forms of military organization and their relation to political power. Various aspects of the subject are controversial among scholars specializing in early medieval history, yet this is the first book-length study on the subject to be published. For a hundred

years scholars have equated the military institutions of Merovingian Gaul with the customs of the Franks, a minority of the population who were rapidly acculturated. Professor Bachrach's study shows the heterogeneous nature of Merovingian military organization, composed of many institutions drawn from non-Frankish people especially from the remains of the Roman Empire. By dealing with all of the significant sources he demonstrates that there was frequent change in the military institutions rather than revolutionary change. The fluid nature of the military organization also is seen to have had profound effects upon the exercise of political power. Probably the most significant finding of the study is that Merovingian military organization, like much else in Merovingian Gaul, resembled Romania far more than Germania.
